Computer Science Coursework @UCR (2020-2024)

- CS 10A Intro to Computer Science for Sci, Math, and Engr I
- CS 10B Intro to Computer Science for Sci, Math, and Engr II
- CS 10C Intro to Data Structures and Algorithms
- CS 011 Intro to Discrete Structures
- CS 061 Machine Organization and Assembly Language Programming
- CS 100 Software Construction
- CS 111 Discrete Structures
- CS 120A Logic Design
- CS 141 Intermediate Data Structures and Algorithms
- CS120B Intro to Embedded Systems
- CS 161 Design and Architecture of Computer Systems
- CS 150 The Theory of Automata and Formal Languages
- ENGR 180W Technical Communications
- CS 153 Design of Operating Systems
- CS 170 Intro to Artificial Intelligence
- CS 179F Project in Computer Science: Operating Systems
- CS 142 Algorithm Engineering
- CS 144 Algorithms for Bioinformatics
- CS 152 Compiler Design
- CS 180 Intro to Software Engineering
- CS 110 Principles of Web Development
- CS 147 Graphics Processing Unit Computing and Programming
- CS 172 Intro to Information Retrieval
